My question is: Is there a way to use QTractor as a Python Qt frontend? I understand that qtractor-python is not part of the official QTractor distribution, but it would be a nice addition in terms of workflow. A: Yes. You can use PySide to make a Python backend. I didn't try it, but it can easily be a workaround to implement your own tool. Q: C: The Name of a Dynamic Array I created this dynamically allocated array: char *myarray = malloc(SIZE); I would like to know if I can modify the name of this array, i. 3da54e8ca3
