## Freshkiller With Registration Code

There are many applications that can help you with downloading songs and video from Internet, but we are not talking about them. FreshKiller is a handy utility designed to cut the links from websites with SCU's, removed links from the websites, process the links in one big batch and to send DCMA emails to the respective owners of those sharing sites for you. It is especially designed for freeing your brain from manual upload process. Just collect all links, process them via FreshKiller and you are set. FreshKiller program will process your links automatically and add them to FreshKiller DB. Its built in Drag and Drop feature allows you to select links to add them to FreshKiller DB. The links in FreshKiller DB can be sorted in both temporal and type order. Freshkiller has the following features: Processing 100 links with one click Dragging links from your browser to process them immediately Editing/Removing (clicking on the link) and adding (dragging links from browser to process the links) links Removing URLs from inside the files (ex:.rar,.exe,.zip etc.) Processing all types of links (no files, no text, no HTML and no videos). Sending DCMA emails (or on-screen notifications) to the respective owners of these links (if our database has their contacts) The agents of the sites MUST remove the files from their server otherwise they would break the law (please ask at Freshkiller website for more information) Its built in Drag and Drop feature allows you to select links to add them to FreshKiller DB.
