I found a post (How to patch autocad 2013 x64 keygen, autocad 2013 patch xforce) that recommends using an older version of keygen and that may work. However, I can't find it, and my AutoCAD version is 2013, not 2012 (I had to downgrade). A: A few things to try: 1. Open up XFORCE Autocad 2013 SP2 10.0 (x86, x64), and select "Mem patch". 2. Close and re-open the application, and restart your computer. 3. In the "About Autodesk AutoCAD 2013" window, click the "Check for Update" button. If the patch fails, leave XFORCE for now. If it doesn't: in a CMD Prompt window, type "regsvr32 Autocad 2013 Autodesk.Registration.v2.reg" to register the patch. It should fail if the patch exists, but there are no updates. 4. Restart again, and run the XFORCE Autocad 2013 SP2 10.0 (x86, x64) Patch and try to "Mem patch". If this has any effect: Select the "Install" option on the Patch License Agreement (LICENSE), and then follow the installation instructions. If you have any other options, please add them to the question. A: AutoCAD 2013 (x64) with version 10.0.0.7194: Install XFORCE
