```
Top(models.Model):  
    videos = models.ManyToManyField(TopVideo
```

s) user =
models.ForeignKey(User)
timestamp = models.DateTimeField(auto_now=True) class
TopVideos(models.Model): user
= models.ForeignKey(User)
video =
models.ForeignKey(Video) and i
am using django rest framework
to do rest server. the problem is,
how can i use Post_delete trigger
to delete related object of
TopVideos table, when i delete
Top, the related object in
TopVideos should be deleted
too, A: You can use the cascade
option in the ManyToManyField,
to delete the related objects.
class Top(models.Model): videos
= models.ManyToManyField(Top

```
